Engaging & Captivating

I'm always aware and keeping check of 2 things - the mood and spirits of the audience, and the momentum of the event. It's all about getting the audience involved and never letting the momentum fall.

DO YOU KNOW?

Melvin loves going to the floor and interacting with the crowd. When he does that, it's not easy to find him because he's actually quite vertically challenged.

Sometimes, I really don't have a clue as to how I come up with the things that I come up with. Maybe I'm just a bit whacked out. LOL.

Experienced & Professional

To me, emceeing is not just about speaking well. That's a prerequisite. Instead, it's about knowing and understanding how an event works. That's what sets apart a great emcee from the good ones.

DO YOU KNOW?

Melvin is extremely good with "last minute" stuff. He always says, "Melvin here, no fear".
